UNDER WATER CAMERA

SCUBA TANK

DIVE LIGHT

TANK LIGHT.

## Our Classes Are made simple.

Many people call and ask about the price of our class and what it includes. Remember to ask questions when shopping for Scuba whether it is for gear or lessons this is supposed to be fun but if you are not taught correctly it might not be.

Our lessons are most of the time private in our instore pool, we schedule for you and your convenience, so you are not rushed through the learning process. You can try your mask and your fins, before you buy them and you can purchase them before your certification,

Not before you start your class. Anchor Bay Scuba wants the learning scuba to be fun not a chore. We do teach weekend courses for those who must have lessons before a trip. That can be done 2 ways on line, and then come in to the pool and learn your skills. Don makes his classes easy and enjoyable and you can start any time. No waiting for a class to get enough people to start.

You can sign up and schedule your class right that day... come in and see what we offer. You will be glad you did....

## Be a Master Diver

Rescue certification with 5 specialties entitles you to a PADI Master Diver rating. Inquire at Anchor Bay Scuba and continue your dive education. You may be entitled to a College credit that you have not claimed.

Take your Open Water Class and get certified where ever we travel, join us on our trips and get certified... Or get a specialty certification while diving in the Caribbean. You can up your certification while having fun on vacation.

We have private lessons every time we teach.

**WE HAVE THE POOL!**

Check it out.

### Gear Tips :

Most important piece of equipment ?

Your Mask  
Make sure it fits comfortable

## Service your gear now!!

### 45 days till Spring!! Time to get your equipment serviced

Most of your equipment needs servicing at least once a year! The official start of the 2018 Dive season is a little over 8 weeks away!

Your Regulators, BCDs, tanks and computers need to be ready for the start of the dive season or our next trip to Grenada. This is our reminder to you to bring in your gear, BEAT the rush by having your service work done now! Don't wait till the dive season starts. Be ready when the weather breaks...

## Grenada May 2018

Grenada will be here soon and our trip is filled. We have free Nitrox on this trip, and those who are not Nitrox certified can get certified before we leave. There is a class on Feb. 10 th and one following in March date to be determined. If you are interested or just want to find out more give Don a call or come in and inquire, and talk with Don he will explain everything you need to do...
