February 2019

Our Trip to Fiji!

By now some of you have seen our pictures from Fiji, we took 36 people and they were 13 to 74 and we had a blast !!! Shark dives were fantastic, and the diving was awesome, best of all the young people got to experience diving and culture on the other side of the world, and meet people from another country... What an experience for some of these families, something School cannot teach. So Kudos to all, it was wonderful and we made a wonderful impression I am hopeful that they want us to come back. We are all still getting our photos and videos up so stay tuned and enjoy. Thanks to Filo, Wayne, and the entire Staff of Beqa Lagoon we had a great time ! Thanks to you all. !!!

Our Classes Are made simple.

Many people call and ask about the price of our class and what it includes. Remember to ask questions when shopping for Scuba whether it is for gear or lessons this is supposed to be fun but if you are not taught correctly it might not be.

Our lessons are most of the time private in our instore pool, we schedule for you and your convenience, so you are not rushed through the learning process. You can try your mask and your fins, before you buy them and you can purchase them before your certification,

Not before you start your class. Anchor Bay Scuba wants the learning scuba to be fun not a chore. We do teach weekend courses for those who must have lessons before a trip. That can be done 2 ways on line, and then come in to the pool and learn your skills. Don makes his classes easy and enjoyable and you can start any time . No waiting for a class to get enough people to start.

You can sign up and schedule your class right that day... come in and see what we offer. You will be glad you did....

Valentine's day Is coming ! Don't forget!

What to Buy your Valentine Diver
