April 2018 News letter (Happy Easter)

Dive season	Class info and Products	Tank Round up	Announcements
-------------	-------------------------	---------------	---------------

With Spring, comes boating, and Scuba diving, we are patiently waiting for the weather to cooperate so we can get our gear in the water. Classes have been going, and we are getting the gear ready. Divers are beginning to bring their tanks and their regulators in for service, to make sure all the gear is in working order for summer.

We look forward to getting in the water again.

### Get your gear Serviced

It is that time again to get your scuba gear checked and serviced, Keep up on your warranties, and check records to keep warranties current. Hydros and VIPs current.
