GRENADA WAS PERFECT

Our trip to Grenada was a success, and we could not ask for more fun above, and below the water. True Blue Bay Resort was wonderful, the food, people, accommodations, and more. Aquanauts dive op was tremendous and we can only say they are all awesome.

Bugsy, Krispin, Dennis, and Bruce... They were great, and we will see them again.. We look forward to going back and diving with them again. Diving the Bianca C, the biggest wreck of the Caribbean, and the Sculpture park was great. The spice island has so much history, and we learned a lot.

Getting the gear ready to dive.

Yes it is that time of year where we want to have our gear in tip top shape for diving in the river, on charters, and local vacations.

So don't get stuck without air, or a regulator free flow get those tanks certified and regulators checked. Your life depends on it.
